About This Game

Gear Gauntlet is a fun but rage inducing 2D action arcade game from Drop Dead Interactive.

Test your patience through ever more punishing gauntlets while boosting, teleporting, reversing and rotating to survive. Use your reflexes to break through coloured barriers and earn your place on the leaderboard.

Beautiful hand drawn art and a wonderful soundtrack accompany your descent into fury, but do try to remain calm!

Can you survive the Gear Gauntlet?

The real antagonist of this game isn't the zombies, it's the guy who replaces all the boxes at the end of every day.. A very fun installment to the series. I'm a sucker for customizing stuff, so being able to add buildings, structures, and plants wherever you want in your town is right up my alley. The gameplay hasn't changed much, though the entire game itself seems much easier than any of the previous ones. It only took two run-throughs of (many, not even all) of the wonders to unlock all of the achievements.

Worth buying, for sure. This series is my favorite casual game series ever, and this new installment does not stray far from what made the original great!. This game makes me wonder if greenlight is actually working...)

What's the point of taking coins in the last wave?
What's the point of buying something you have no idea how it works? (weapons)
What's the point of taking an item you have no idea what it does and it has no name?
What's the point of the same useless item dropping 3 times in the same level?
What's the point of pressing Start in the game screen?
What's the point of playing this game?
What's the point of creating this game?

. I think you should be more windy. Jolly Rover is a perfect example of everything that stinks about adventure games.

The solutions to the puzzles don't always make logical sense; you find yourself just clicking wildly on every item and every square inch of each room until you "solve" the puzzle. Bor-ing! If the "humor" was actually funny, or if there was a story to be told, I might have enjoyed Jolly Rover more. But it wasn't, and there wasn't, so I didn't.

Steer clear of this wreck. I suggest the more thoughtful "Puzzle Agent", instead.. Another time management game. 3rd in the serie of Viking Brothers.

You have to perform actions so as to achieve a goal (i.e. select an item (wood f.e.) so that you character goes to pick it up). Same thing as Viking Brothers 2 - save that it's way more difficult. My 9 hours of play are on the main part (40 levels). There's a bonus part I didn't try yet - though, I have triggered all achievements. Some levels, here, are really really tough. I gave up obtaining 3 stars on these. After up to 5 tries, it isn't fun anymore for me.

I didn't have any issue playing this on Win7 64 bits.. Great game, I'm now a diplomated doctor and baker.
